Professional Summary

Dynamic Front End React.js Developer with a Master's in Computer Applications and a strong foundation in HTML5, CSS3, JavaScript (ES6), React.js, and Tailwind CSS. Eager to contribute enthusiasm, adaptability, and a fresh perspective to a dynamic team.

Education

Master of Computer Applications (MCA), <i>Islamic University of Science and Technology</i>	2020 – 2023 Awantipora, Pulwama
--	------------------------------------

Bachelor of Computer Applications (BCA), <i>Masters Institute of Information And Technology</i>	2016 – 2020 Pulwama
---	------------------------

Technical Skills

HTML5	CSS3
JavaScript ES6	React.js
React Hooks	React Router Dom
Redux.js	Context Api
Tailwind CSS	

Soft Skills

Adaptability	Problem Solving
Communication	Creativity

Projects

React Fast Pizza App

- Designed responsive UI with Tailwind CSS for optimal user experience on various devices.
- Implemented client-side routing with React Router DOM for seamless navigation.
- Utilized Redux.js for global state management, including user and cart slices for efficient data handling.
- Leveraged React hooks (useState) for dynamic data rendering and interactivity.
- Integrated geolocation feature to personalize user services based on location.
- Used React Router DOM loader functions for efficient menu component rendering.

World Wise App

- Developed "World Wise" web app for interactive location selection and experience sharing.
- Implemented map functionality with Leaflet library for location details and user interactions.
- Utilized React Router DOM for seamless multi-page navigation and enhanced user experience.
- Implemented Context API for efficient global state management and to avoid prop drilling.
- Integrated reverse geocoding API to fetch location details based on user interactions.
- Leveraged JavaScript ES6 features and React hooks for dynamic data rendering and interactivity.
